Purchaser:

Total cost (including shipping) : R.....

This contract is a legal agreement between the Seller and the Purchaser.

Any breach of what it is stipulated in this contract by either the Seller or the Purchaser may lead to legal consequences.

Purchaser agrees to the following:

1: This cat/kitten is sold as a quality pet/show cat. The cat/kitten is sold already spayed/neutered, litter trained, twice checked by our veterinarian, fully vaccinated, dewormed and treated for fleas and ticks.

2: This cat/kitten is sold together with the registration documents (SACC if the kitten/cat is sold in South Africa and TICA if sold internationally) and a full 4 generation pedigree.

3: Deposits(50%of total cat/kitten price+50% of shipping quote if required) and Waiting list fees(R 500) are not refundable, except in the case that the Seller is unable to proceed with the sale.

4: The 50% balance for the cat/kitten must be payed to the Seller by the Purchaser at latest 1 week before the cat/kitten will be ready. (unless otherwise agreed).

4.1: If the Purchaser will not comply with what stipulated in point 4, the Seller reserves the rights to keep the deposit and/or waiting list amounts and to re-advertise the cat/kitten.

5: No cash refunds will be given to the Purchaser at any stage, unless his/her veterinarian should find a serious health problem in the cat/kitten, within the period of 72 hours (no contact with other cats). Those 72 hours are calculated from the moment the cat/kitten leaves the Seller's premises.

6: The Purchaser is not allowed to sell or re-home the cat/kitten at any stage of his/her life, without contacting the Seller first. Should the Purchaser find him/herself unable to keep the cat/kitten for a legit reason, the Seller will assist in finding a new home for the cat/kitten.

7: Under no circumstances may the cat/kitten be leased, given away, sold to pet-shops, animal laboratories or any similar facilities.

8: The Seller has got the right to ask the Purchaser details of his/her house, habits, work, family, presence of other pets, exc... in order to guarantee for the cat/kitten life quality and safety. These details will be kept confidential between the Seller and the Purchaser.

Page 2

9: The cat/kitten is sold as an indoor pet. It is agreed by the Purchaser that the cat/kitten will not be allowed outside unless with supervision or on a leash.

10: Any health or settling in concerns must be discussed solely with the Purchaser's veterinarian and/or with the Seller. It is not for public discussion.

11: The kitten will be ready to leave the cattery at 12/14 weeks of age. The Seller reserves the right to prolongue this period if the kitten is not considered ready to leave the cattery yet. For kittens sold internationally, the period might be longer, depending on the specific Country rules.

12: A cat/kitten sold as a show cat has outstanding qualities which are beyond the definition of Pet. The Seller cannot guarantee, though, that such cat/kitten will be recognized with a champion status or will be rewarded at cat shows, as there are many variable things which are not under the Seller's control.

Health Guarantee:

Our kittens/cats have received their first vaccination at 7/8 weeks of age, and the second one at 12 weeks of age. They have also been dewormed, treated for ticks and fleas and checked twice by our veterinarian.

The next vaccination booster shall be given by the Purchaser at the time indicated on the Vaccination Record book.

The kitten/cat is guaranteed to be in good health when leaving our cattery, and to be free from FIV and FeLV. The kitten/cat is also guaranteed to be negative to genetic diseases such as PRA, PK def and HCM, as all of our Studs and Queens have been tested (PRA,

PK def) and yearly tested (HCM).

The good health guarantee is valid for 72 hours after leaving the cattery (see also point 5 in the previous page), providing that the cat/kitten has not being in contact with other cats. The validity is reliant on the cat/kitten being checked by a veterinarian in those 72 hours, and that veterinarian agreeing that the cat/kitten is not in good health.

Page 3

All the veterinary bills and care are the sole responsibility of the Purchaser, once the good health guarantee has expired.

Should the kitten/cat die due to a congenital defect (which may be not visible during the early stages) within the first 12 months, the Seller will replace the kitten/cat with another one of comparable quality and value when available. No additional costs will be charged to the Purchaser.

A Post Mortem certificate is required to verify the cause of death.

Undesirable Behaviour Issues (spraying, inappropriate urination, scratching of furniture, exc) developing once the cat/kitten has been turned over to the Purchaser, as well as health conditions such as colds, skin rashes, virus and bacterial infections are not considered conditions for return or refund. The Seller is available to assist the Purchaser for any behavioural issues.

Each kitten/cat will differ in the time needed to bond with his/her new family. Please give the kitten ample time to adjust.

Purchaser agrees to provide his/her Bengal with lots of love and a good quality life.

By signing this contract, the Purchaser confirms that he/she has read this document and that he/she fully understands and agrees to all the terms written in this contract.
